SUMMARY

A dedicated and detail-oriented Computer Science and Engineering   graduate with a solid academic foundation and a growing interest in applying technical skills in real-world environments. I have developed a strong understanding of prompt engineering and have successfully   applied this knowledge in the development of several projects. Eager to contribute to a dynamic and collaborative workplace, I am committed to continuous learning and capable of working effectively under pressure while adapting to new challenges.

EDUCATION

MCKV INSTITUTE OF ENGINEERING, Liluah

2022 - Present

Major in **Computer Science and Engineering.**

Secured SGPA- 7.98 (in 6th semester)

AUXILIUM CONVENT SCHOOL , Bandel

2021 - 2022

Secured 62.7%, CISCE (XII)

AUXILIUM CONVENT SCHOOL, Bandel

2019 - 2020

Secured 93% , CISCE (X)

SOFT SKILLS :

Interpersonal Communication ,Quick Learner , Problem Solver , Presentation Skills

LANGUAGES AND HOBBIES

Languages: English, Hindi, Bengali.

Hobbies : reading books , mandela making , story writing,handcrafts

CERTIFICATIONS

- *Getting Started with AI* – IBM – Mar 2025
- *AI for Beginners -* HP - July 2025
- BUILDING INTELLIGENT SYSTEMS WITH PYTHON: DATA SCIENCE, AI, AND ML- Ardent Computech Pvt. Ltd.- JUNE 2025 to JULY 2025
- IBM front end web development internship - July to August 2025

PROJECTS

Industrial Smart Kitchen Technology

Designed and implemented a microcontroller-driven (C) automated kitchen system that cut manual intervention by 40%, streamlining industrial operations .

Travel Booking System

Web-based appointment scheduler (Python, Java) with user authentication .

House Price Prediction Website

Price prediction scheduler built with Python and Streamlit.

Personal Portfolio Website

Created and designed a personal portfolio platform through website , with user-friendly interface , handling all personal information .

HealthCare Chatbot

Helps user to cure basic diseases through home remedies , can be integrate with Ai future for more accurate better result.
